

Strategic Plan 2023–2025

Health Translation Queensland brings together many of Queensland’s universities, research institutes and health services to help translate well-evidenced research into clinical practice. Our partnership enables greater integration and collaboration between researchers, clinicians, policy makers, health administrators and health consumers. Health Translation Queensland is a NHMRC accredited Research Translation Centre.

Our vision

- + Improved population health outcomes through collaborative partnerships that translate scientific discovery and knowledge into practice

Our mission

- + To enable the translation and integration of innovative health research with education, policy, clinical care and consumer engagement

Our values

- + Clinical and academic excellence
- + Collaboration and integration
- + Innovation and implementation
- + Inclusiveness and openness
- + Respect, integrity, trust and accountability

Make the work of translational research easier

- + Harmonise and streamline translational research processes
- + Promote and facilitate collaboration across disciplines and institutions

Increase Queensland’s translational research capability

- + Enable and facilitate education and training of the clinician–researcher workforce
- + Build Queensland’s health and medical research commercialisation capability
- + Identify and advocate for increased funding to support translational research

Maximise the benefit of health research translation for all Queenslanders

- + Support health equity for underserved communities with a specific focus on Indigenous Australians
- + Partner with and drive translational research in primary care
- + Involve consumers and community in translational research
